RETURN TO CIA LIBRARY

1. The two ships "Asia" and "Cordillera" are still being repaired in the ~~WARNEMUENDE~~ (M 55/0 32) WARNOW Shipyard, on the eastern bank of the new Warnow river and south of the ferry-harbor. The Soviet navigation training ship "Leningrad Soviet" recently arrived in the shipyard for unknown repair work, which had not yet been started.

25X1B2. Ten PT boats with the numerical designations [REDACTED] were seen in the shipyard area. 25X1B

3. Several minesweepers, harbor defense boats and other harbor craft were berthed along the pier.

4. Some motorboats of the Soviet naval police, who obviously also performed customs duty, were berthed on the old Warnow river, in the former yacht harbor "Am Strom".

5. The shipyard is equipped with a floating crane with 40-ton lifting capacity, built by the HAMBURG Kumpf-Firm. Two floating docks and a steamer of the Soviet salvage commission were berthed in the "Wendebassin" (turning-point basin).

6. The Soviet Navy radio station is located near the lighthouse. The station's double loop antenna, about 200 feet long, extends between the lighthouse and the signal tower of the pilot station.

7. The ~~WARNEMUENDE~~ seaside resort has been officially reopened to civilians; all restrictions have allegedly been lifted. However, with most of the hotels being occupied by shipyard workers, there were very few accommodations available for tourists.

25X1A [REDACTED] Comment:

The observations essentially agree with previous information. The WARNOW Shipyard is still being improved.
